14-18 Feb 2022	04-08 Jul 2022	17-21 Oct 2022
28 Feb-04 Mar 2022	18-22 Jul 2022	31 Oct-04 Nov 2022
14-18 Mar 2022	01-05 Aug 2022	14-18 Nov 2022
04-08 Apr 2022	22-26 Aug 2022	28 Nov-02 Dec 2022
18-22 Apr 2022		
02-06 May 2022		

Target Audience

This course is for educators and other professionals who would like to experience for themselves a variety of software and online tools in order to integrate technology into their Learning Environments, while also brushing up their own use of English. Specialised knowledge is not required except a basic knowledge of using Microsoft Word and using the Internet. Participants need to be at a B1 level of English.

Course Summary

This intensive 1 week course is aimed at professionals who would like to develop teaching methods to include technology in the classroom , school or other learning environments. A wide range of free available technologies is introduced and worked on during the course.

Preparation

After registration, participants on this course programme will receive:

- A pre-course questionnaire which will enable trainers to learn about the participants' teaching backgrounds
- Information about the Europass Mobility Certificate
- A list of IT-related requirements to prepare participants for the course

Objectives

- To enable better skills in technology and ICT
- To introduce an awareness of ways of integrating ICT with teaching methodologies, using hands-on & experiential methods
- To help teachers reflect on their own teaching methods in relation to technology in the classroom today
- To help participants experience hands-on a range of interesting tools, software and programmes which are available as freeware, & set up activities linking methodology and technology today
- To further develop participants' own language skills
- To experience the cultural heritage of Malta with its bilingual linguistic environment

(The course draws on the results of the POOLS and POOLS-T Leonardo Projects (Project for Open Online Learning System s) and Methodologies).

Methodology

This course is taught interactively, with input sessions, collaborative and group project work. Participants are actively involved in all sessions. Input sessions are in the form of hands-on workshops and could involve brainstorming, analysis and at times problem-solving. Sessions help participants set up tools such as Blogs & Websites and apply online tools in a scaffolded setting. Participants are asked to reflect on the tools & activities, inviting discussion with regard to their own knowledge & skills, their approach to teaching today's students, and on adaptation of the use of the tools to their teaching & learning situations & contexts. Exchange of participants' ICT and pedagogical knowledge is encouraged through discussion. Participants' own language skills are developed and feedback given where appropriate. Participants are also introduced to appropriate websites related to the further development of their teaching skills & personal professional development.

Follow Up

The course ends with an evaluation session, where teachers are asked to reflect upon the value of the knowledge gained on the course and its usefulness to them. They are also encouraged in this session to come up with a Personal Development Action Plan, and select tools & activities which they would like to try out in their own classes or projects.

They are invited to join the ETI Teacher Training Facebook community, which allows networking and contact with the trainers and fellow colleagues, and with participants from other courses.

Participants are also encouraged to join communities for the POOLS Projects, and other ETI-related EU Projects, such as METHODS (Communicative Language Teaching Methods), TOOLS, and CLIL4U.

A Sample Course Programme

Emp. In ICT Skills

TIME	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
09.00 – 10.30	CMC: Computer Mediated Communication	Blogs: Uses and Learning Potential Designing a Blog	Authoring Tools Creating Online Exercises (1): Matching, Jumbled Texts,	Techno Tools: Recording from your Computer Screen	Creating Virtual Identities Avatars
